WHAT IT IS

The personal context layer between your life and everything it touches.

HOW IT WORKS

1

Start anywhere

Opti listens with genuine curiosity to your weirdest questions, deepest shower thoughts, and everything in between.

2

It all adds up

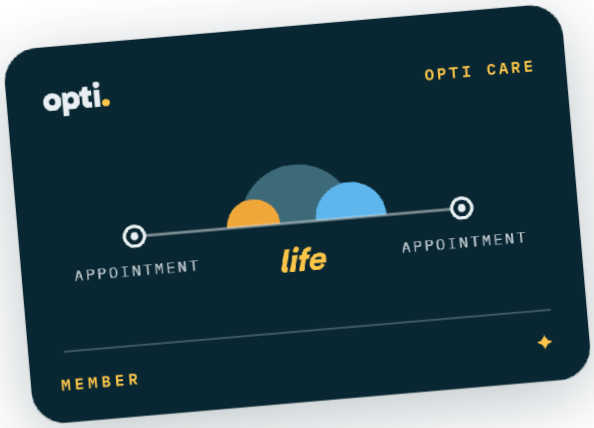

Like a good friend, Opti always remembers. It's that feeling of being understood that keeps you coming back.

3

Yours to wield

Opti amplifies even the most advanced models by giving them the one thing they're missing knowledge on: you.

HOW WE MAKE MONEY

Opti Care

- **Lifestyle care, life included**
  Membership-based metabolic and hormone care, tailored to you, not your intake form. And with hundreds of peptides in active research, GLP-1s and weight loss are just the beginning.

- **Carry it with you**
  Others power the appointment, Opti informs it. Brief your therapist, prep a new doctor, and connect the dots across your health and happiness.
