Start anywhere

Opti listens with genuine curiosity to your weirdest questions, deepest shower thoughts, and everything in between.

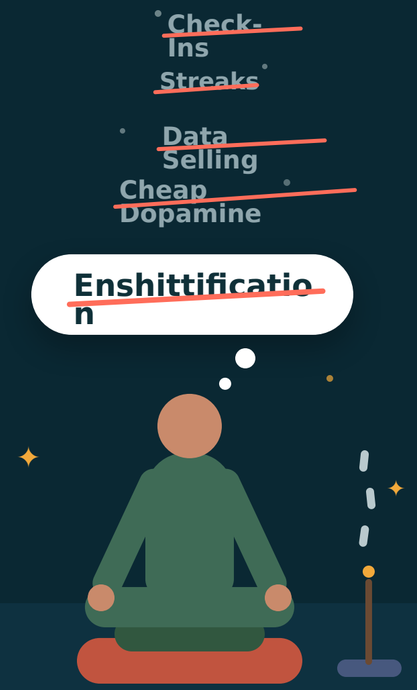

It all adds up

Like a good friend, Opti always remembers. It’s that feeling of being understood that keeps you coming back.

Yours to wield

Opti amplifies even the most advanced models by giving them the one thing they’re missing knowledge on: you.

Why it works

1

Never presumes

Opti listens and curiously builds to drive sticky self-discovery, not temporary guilt-trips.

2

Never algorithms you

Opti is carefully designed to ensure your life never becomes our product.

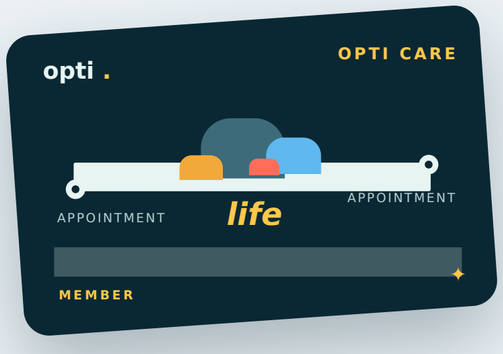

3

Never replaces a human

Opti is a knowledgeable friend with a great memory, but it can never replace human care.

Opti Care.

Lifestyle medicine, with life included.

PRODUCT

Membership-based metabolic and hormone care that knows you, not just your intake form.

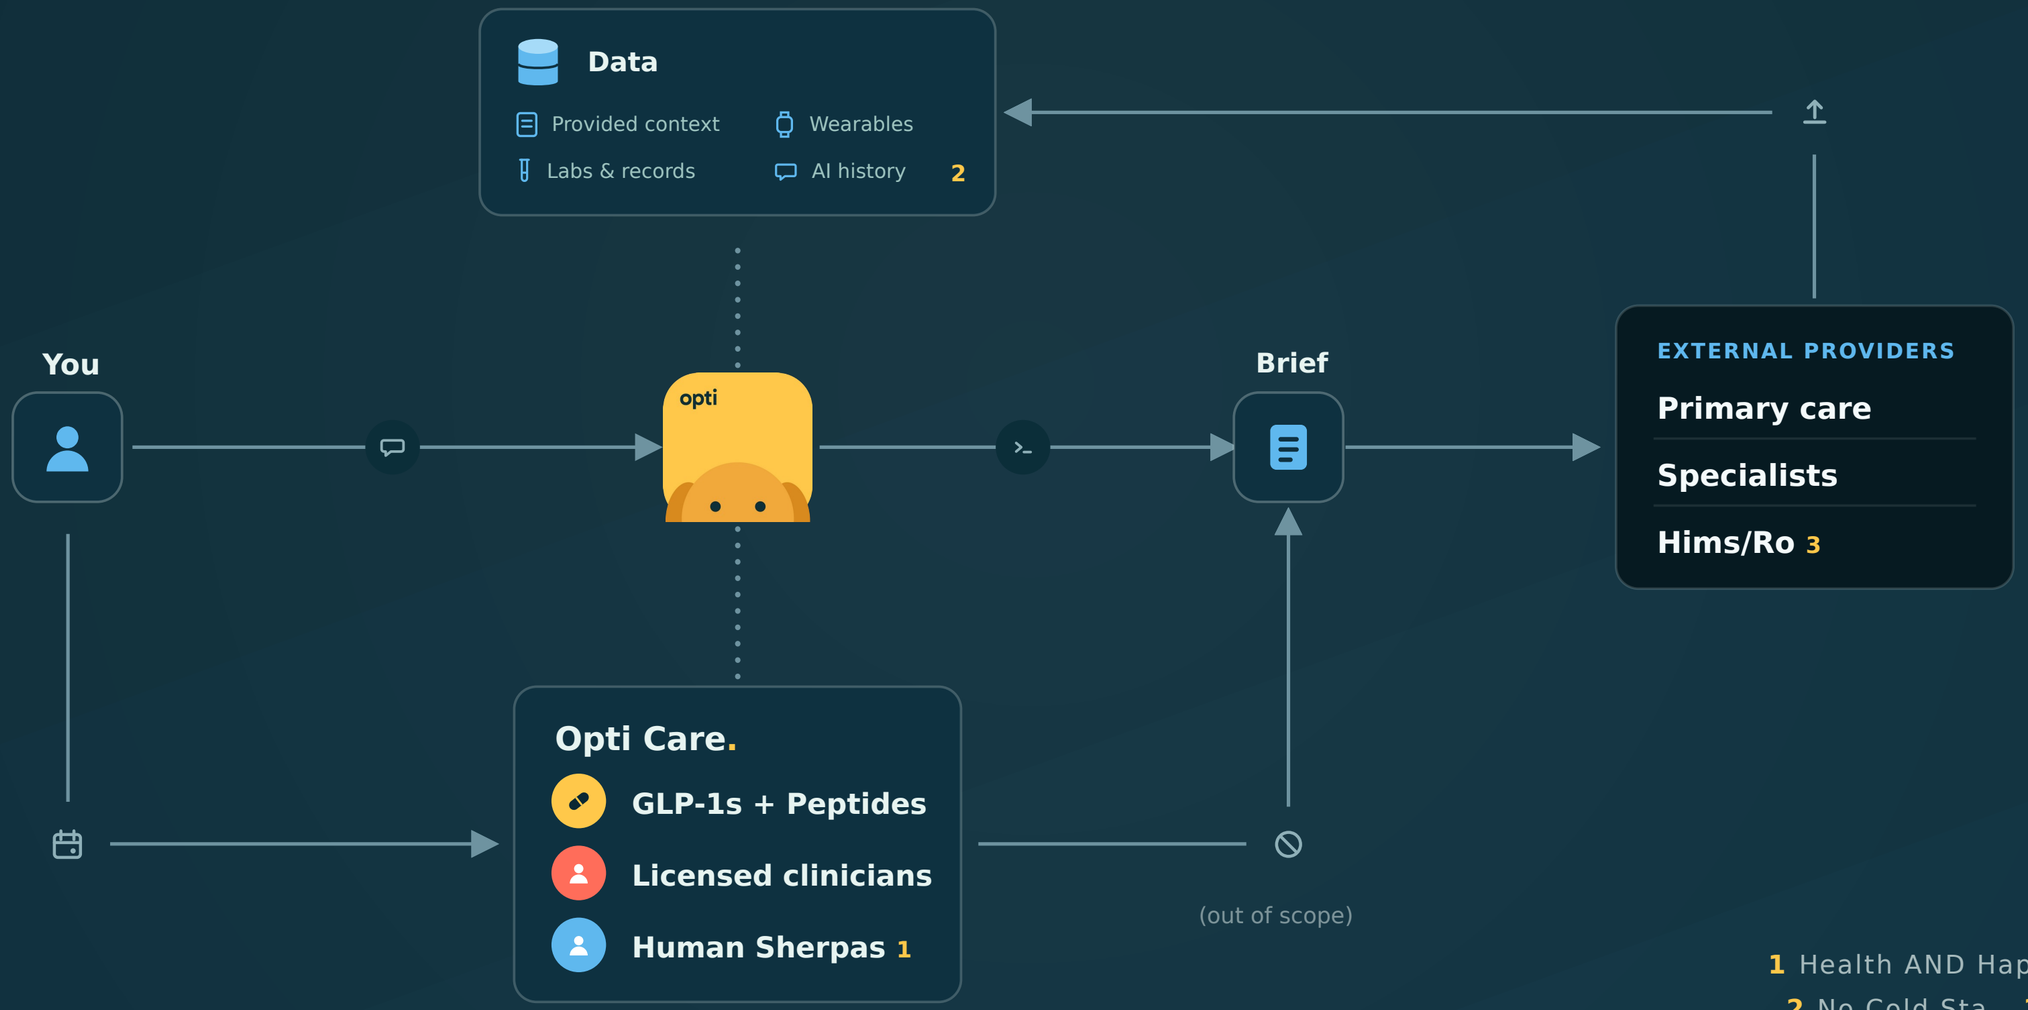

MISSION

Unmistakably human care that refuses to exploit people for profit.

ADVANTAGE

Personalized, proactive, and predictive.
